SIR:

In response to the Office Action dated March 24, 2003, please amend the above-identified application as follows:

IN THE CLAIMS

Please amend Claim14 follows:

DI 14. (Amended) A semiconductor integrated circuit as set forth in claim 11, which further comprises a control signal input circuit, connected to the drain terminal of said FET, configured to switch and control the magnitude relationship between the drain voltage and the source voltage of said FET.

REMARKS

Favorable reconsideration of this application as presently amended is respectfully requested.
